- **June 21 20:22** - closing of the Time-KP
- **June 21 22:30** - publication of preliminary results

- **June 22 - publication and submission of final results**

### **Technical information:**

Distance "accurate orientation" (PreO): **16 tasks** + 1 time-control. On the map published in advance, the distance will be indicated. The distance must be passed in the given sequence at the specified control time (60 minutes). The photo was taken from the decision point (it will be marked with a symbol on the map). Participants determine from a decision point which prism corresponds to a given legend and the center of the circle on the map.

The card must be downloaded before the start (from 10:00 to 18:00), preferably printed. In Google form, at first there will be a link to the map, but there will NOT be maps on the tasks.

On some KP photos from other angles are possible to simplify the solution of the problem. They will be marked as F1-1, F1-2, etc. The main photo is always marked **"DP" (Decision Point)**. From it the order of prisms is determined.

Prisms do not have inscriptions or other designations, are defined as follows from left to right: the leftmost prism flag is "A", then "B", "C", "D", "E", "F" (in international designations: **Alfa, Bravo, Charlie, Delta, Echo, Foxtrot. The answer is also possible - the absence of a flag prism on the object in the center of the circle, which is called the zero answer or "Z" (Zero). Zero tolerance - 2m, 90 °.**

At the Time-KP - three tasks, a control time of 180 seconds, the answer is Zero impossible. The penalty for an incorrect answer is 60 seconds. For failure to appear at the start of the Time-KP, the participant automatically receives a travel time of 360 seconds.

The area is parked, with historical monuments of architecture of Dnepropetrovsk. Tasks in historical places will not be difficult from a technical point of view. The map was updated in June 2020 as much as possible. After the competition, along with the results, participants will have the opportunity to get acquainted with historical places from a distance in the prepared document.

**Sample:**

DP-1

Reviews can be left on Google form - <https://forms.gle/Jx3R8E32sWkkggz6>

**Ranging:**

- 1) The number of answers coinciding with the judges (who has more - the higher in the protocol); 2) The time spent on passing the Time-KP taking into account the fine.

**Awarding:** The first 3 participants with the best result will receive electronic letters in the mail after the final protocol of the results.

Pre-registration is carried out in Google form - <https://forms.gle/JooXNnDjbt5sitYK6>

In it, the participant fills in all the fields necessary for registration with reliable data. Then, on the morning of the day of the competition, starting numbers will be published and sent to the participants, which must be entered in the starting form. Carefully fill in the start number field. If the number is incorrect, the participant's result will not be recorded!

The costs of conducting are paid by the organizers of the competition. Participation in the competition is free.

Each of the participants can support the organizers of the competition and become a sponsor. An account has been opened for a charitable contribution to the development of orientation in the region.

*To pay a charity contribution in Ukraine, it is enough to replenish the Privat Bank card - 5168 7573 6818 9850 - Kurochkin Dmytro Oleksandrovich.*
